

### Workday Strategic Sourcing: Contracts

By establishing a central repository and proactive alerts for all contracts, sourcing can optimize every contract and improve their leverage with suppliers. Without a widely adopted contract management solution, sourcing teams lack the control they need to empower the business and prevent surprise contract terminations or renewals.

Workday Strategic Sourcing eliminates contract chaos to drive value and productivity. With Workday, you can reduce time spent finding contracts, prevent contract delays, and keep stakeholders informed of approval status. By providing comprehensive visibility into contract and renewal information, Workday Strategic Sourcing helps you make proactive decisions and operationalize obligations to realize the full benefit of all contracts.
